

ISM<sup>®</sup>MOULD

# ISM MOULD

We will give you the perfect solution

ISM mould was established in 2009. Our core focus is professional design and manufacture of all kinds of plastic pallets, folding boxes, crate and other plastic logistics products mold.

We insist on the principle of "satisfying customers" demands and realizing the idea with professional solutions". As a result of our ongoing development, ISM has a team of highly skilled designers, engineers, project managers, fabrication technicians and advanced large-scale precision machining equipment that ensures these injection molds manufactured by ISM are produced according to European and North American standards.

We are small enough to give you the attention you need to take your project from the drawing board to the finished product. Yet we are large enough to provide all the services you need from an injection mould company.

ISM represents International - Standard - Mould.

## MOULD DESIGN :

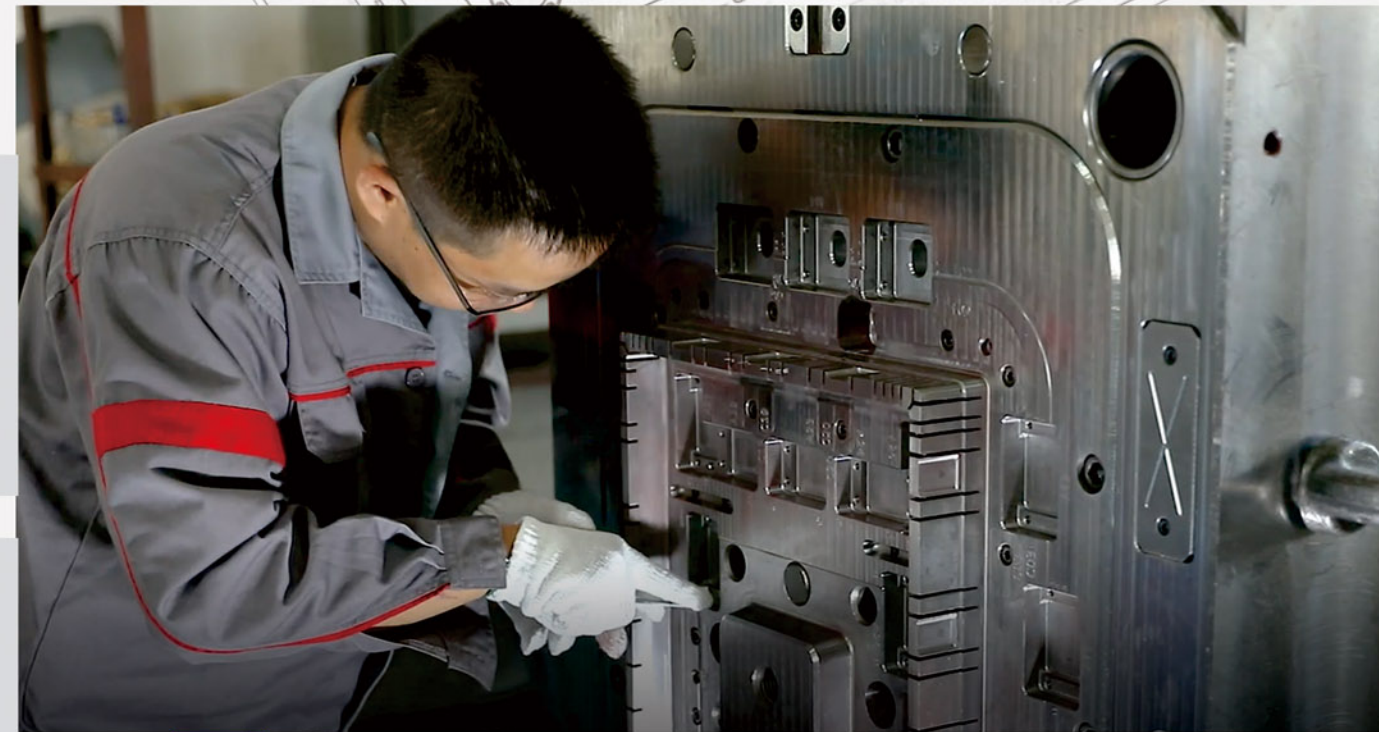

Experienced team of engineers with latest design software to create the best and most cost effective mold for your project requirements

## MOULD MAKING

Precision equipment precision processing, delivery on time, long mold life

## MOULD PRODUCTION

QC ensures sound control of whole process to the minimum details

### Office Location

No.32 Jinchuan Road, North Industrial Area, Huangyan, Zhejiang, China.

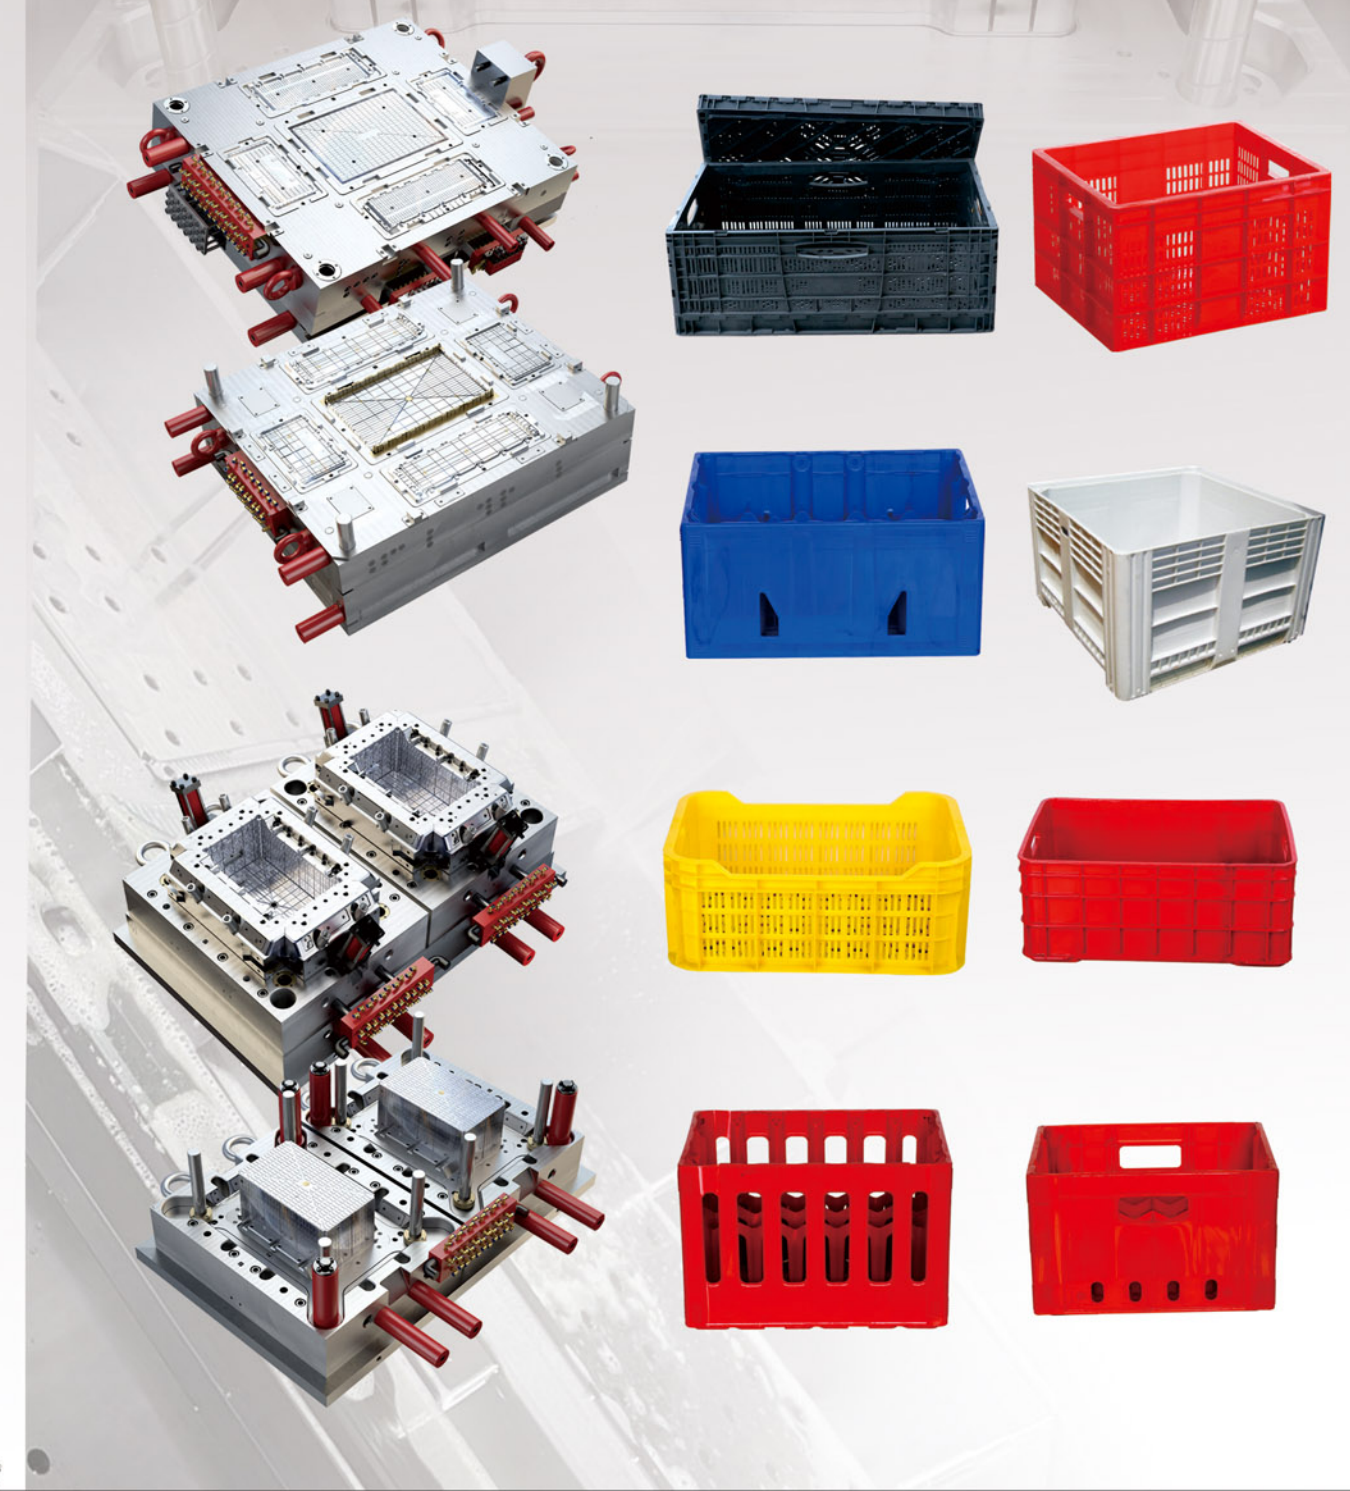

### INDUSTRIAL PALLET MOULD

Single and Double face pallet molds  
DME, HASCO international standard molds  
ISM's Professionalism is reflected in the mold injection system, ejection system, cooling system and runner system

### PLASTIC CRATE MOULD

Injection crate mold is the core mold of ISM. On the basis of ordinary crate molds, ISM have full advantages in large crate molds, Such as double-cavity crate molds, folding crates are completed in one mold, and the injection cycle time is strictly and well controlled compared with ordinary crate molds

### CHAIR & SOFA MOULD

Not only the manufacture of plastic chair molds, ISM also provides development and production of chair and sofa series plastic products according customer requirements. Rich export experience to provide you with a one-stop solution.
