

Home Appliance Mould

ISM has been accumulated rich experience for making home appliances moulds , related moulded products to Air purifier , Gambling machine , Juicing machine , Cooler etc . We strictly ensure perfect assembly for each style .

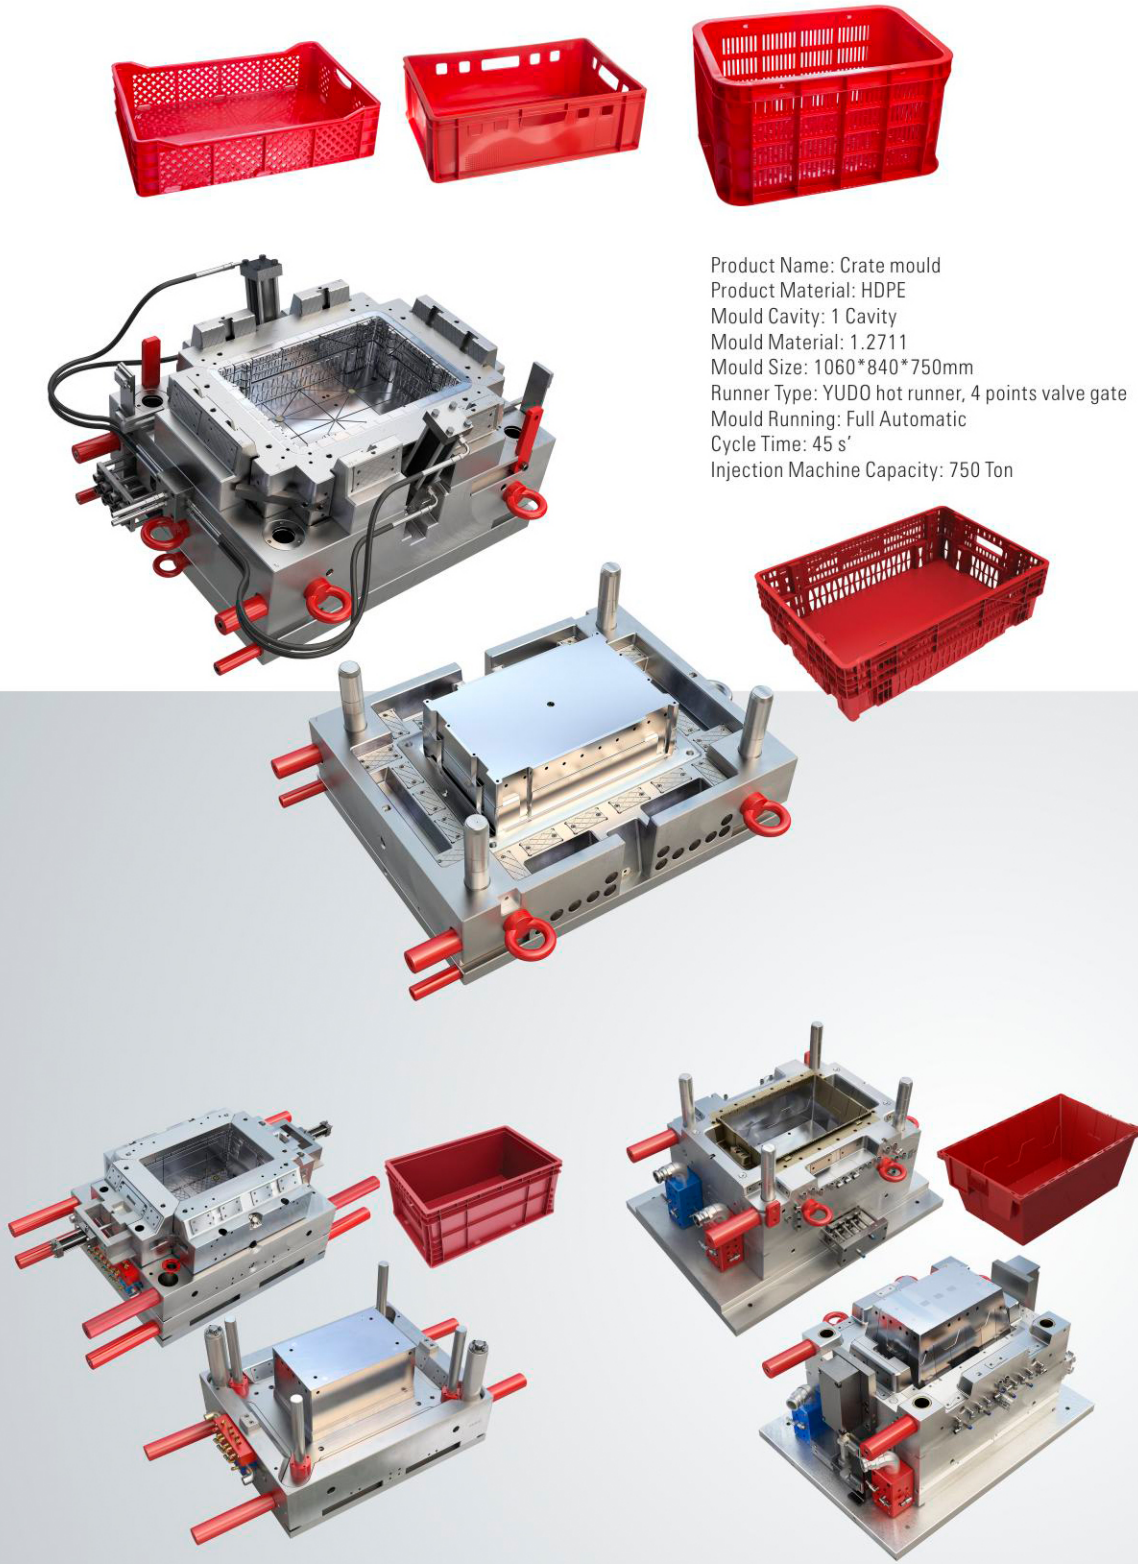

Industrial Pallet Mould

- Single face pallet mould
- Double face plastic pallet mould

Crate Mould

- Non-collapsible crate mould
- Coverd and Uncoverd crate mould
- Industrial crate mould (Turnover crate mould, automotive box mould, tools crate mould)
- Agricultural crate mould (Vegetable crate mould, Fruit crate mould, Fish crate mould)
- Supermarket crate mould (Beer crate mould, Bread crate mould)

Automotive Parts Mould

Houseware Mould

ISM Mould offers all kinds of furniture mould , such as chair mould , table mould , stool mould , folding chair mould and so on .

Bucket&Dustbin Mould

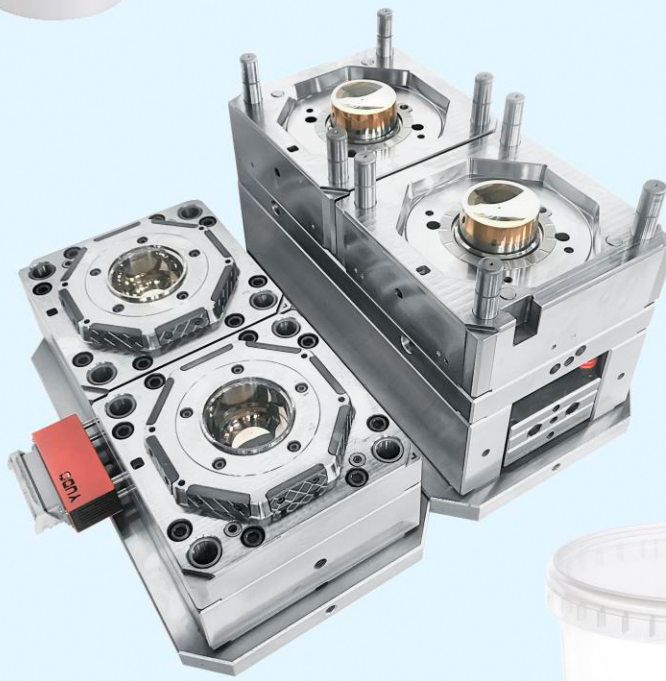

ISM professionally design and manufacture all kinds of bucket moulds , such as water bucket mould , paint pail mould , household and industrial dustbin mould , etc.

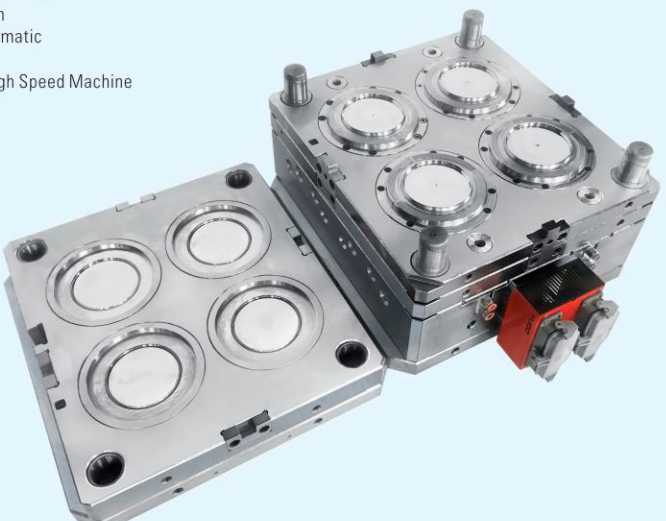

Product Name: **16L Pail Mould**  
Product Material : PP  
Thickness: 1.3 mm  
Mould Cavity: 1 Cavity  
Mould Material : 1.2344  
Hot Runner System: YUDO hot runner open type  
Mould Size: 700\*640\*780mm  
Injection Machine Capacity: 600 Ton  
Cycle Time: 17s  
Mould Running: Full Automatic

Thin Wall Container Mould

ISM have rich experience in making a variety of thin wall moulds. The mould with copper beryllium insert, the best cooling performance and stability of hot runner system, automatic, high-efficiency production.

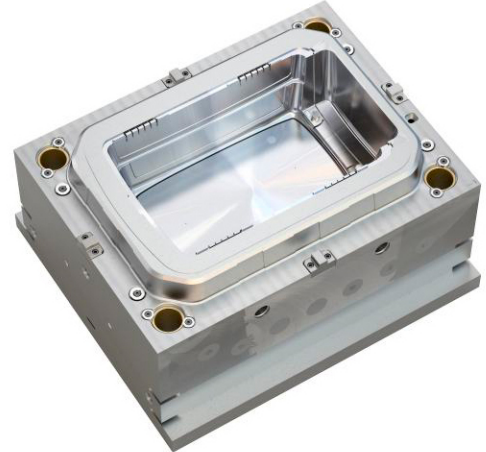

Product Name: **2 Cavity 450ML Container Mould**  
Product Material : PP  
Mould Cavity: 2 Cavity  
Mould Material : 1.2344 with Becu  
Hot Runner System: YUDO hot runner  
Mould Size: 720\*400\*590 mm  
Mould Running Type: Full Automatic  
Cycle Time: 7s  
Machine Capacity: 380 Ton High Speed Machine

Pet Mould

ISM specialized in providing the most comfortable and considerate plastic moulds for Pets , including pet house mould , pet suitcase mould , pet toilets mould , pet automatic feeder mould , automatic water dispenser mould , pet toys mould , etc .

ISM MOULD INTRODUCE

ISM Mould INTRODUCE

ISM Mould was established in 2009 . Our core focus from inception was the development and manufacture of world class injection mould . As a result of our ongoing development, ISM is specialized in designing, manufacturing and producing a variety of wholesale moulds and plastic products with one-stop service to worldwide.

Product Design & Development

A quality product comes from a good design. Our experienced Team of Engineers work with the latest Engineering tools and software helping you construct a quality plastic part. This also allows our Tooling Engineers to create the best and most effective Tooling for your project requirements. Let us help ensure your product can be manufactured. We can review your CAD files or part drawings and provide feedback on possible quality issues or areas in need of improvement. We support multiple file formats including major software.

Mould Manufacturing Capability

Through successful cooperation with many world-renowned companies, ISM Mould has established scientific and standardized mould manufacturing processes. We have mastered the advanced cooling system design and the control technology of the injection moulding cycle. To ensure the manufacturing quality of the products, we constantly introduce high-end CNC equipment, and we have already achieved the leading manufacturing capacity in China, especially for dealing with large and complex mould.

We bring quality changes to our customers with technical strength to meet the market's different demands, improving production efficiency and shorten delivery time.

Production Capacity

Our company have own production workshop and injection machines to help clients to produce plastic products according to all of your requirements . All the products have guaranteed quality, competitive price and good after-sale service . We are assure that we are professional and spare no effort to make it best !
